LEADING THE WAY

FOCUS ON TESTING AND INNOVATION

**AS A PIONEERING BUSINESS, OUR VISION IS TO REDEFINE
THE FUTURE OF 'RACKS.'**

Embracing innovation and pushing boundaries, we are determined to challenge the conventional norms and introduce cutting-edge products that revolutionise cargo transportation for tough worksites and weekend adventures.

For customers who rely on their vehicles every day, we create reliable, practical cargo solutions that work as hard as they do. From tools and ladders to jobsite gear, our products help keep equipment secure, organised and ready for the next job.

OUR COMMITMENTS

UNWAVERING COMMITMENT TO SAFETY AND QUALITY

At Rhino-Rack, we are committed to educating our customers on the safe use and enjoyment of our products. Our products undergo rigorous crash testing and vehicle load rating, ensuring durability and reliability. We take the safety of our customers, and others on the road, as our number one priority.

CRASH CITY TESTING

AT RHINO-RACK, OUR TOP PRIORITY IS TO ENGINEER PRODUCTS OF THE UTMOST QUALITY TO GUARANTEE YOUR SAFETY AND SATISFACTION.

We subject all Rhino-Rack products to rigorous safety standards testing, adhering to the ISO standard. This includes comprehensive City Crash Testing to ISO11154 and Static Load Testing to ISO11154.

We also put our prototypes to the test in real-world Aussie conditions, experimenting with functions that enhance the safety, ease of use, and overall enjoyment of our equipment.

Rest assured, we go the extra mile to ensure that our products meet and exceed your expectations.

VEHICLE LOAD RATING

IT IS VITAL FOR YOU TO UNDERSTAND THE CAPACITY OF YOUR VEHICLE'S ROOF, TUB, AND STORAGE SOLUTIONS.

We have developed a comprehensive load rating calculator to help you understand your load rating.

THERE ARE THREE LOAD RATINGS THAT APPLY IN DIFFERENT SITUATIONS. THESE ARE:

- On-road refers to the load rating of a vehicle when traveling on a sealed road
- A static rating is the load rating of a stationary vehicle and is necessary if you're using, for example, a rooftop tent
- The off-road load rating refers to a vehicle traveling on an unsealed road that does not contain a surface protection layer. Sometimes manufacturers will list the load ratings in the vehicle owner's manual, however, you can calculate the off-road load rating yourself using the formula provided in your product fitting instructions.

It is important to remember the on-road rating does not take into consideration the weight of the roof racks. According to our instructions, the on-road rating + weight of the racks is called roof allowance. But remember, if you buy an accessory or holder and attach it to your rack or tray, you must also include the weight of these items in the load.

It is very unsafe to overload your vehicle. Failure to follow the load ratings in each circumstance could result in damage to your vehicle, potential loss of your load, voiding warranty or insurance, or cause traffic accidents. It's illegal to overload your vehicle.

To get started calculating your load rating, you'll need to make note of your vehicle's load rating from your vehicle owner's manual as well as the Rhino-Rack roof rack system you have installed on your vehicle. Once you have this information you can begin by entering your vehicle details into the load rating page at our <https://www.rhinorack.com/load-rating-calculator>

STATIC

When the vehicle is parked or stationary

ON-ROAD

Driving on paved or sealed roads

OFF-ROAD

Driving on unsealed or dirt roads

OUR STORY

RHINO-RACK CELEBRATES 30 YEARS OF INNOVATION AND HELPING COUNTLESS PEOPLE MAKE SPACE FOR ADVENTURE.

1992

Richard Cropley founded Rhino-Rack®. Our first racks were sold in Haberfield, NSW.

1993

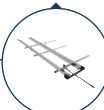

RockyMounts was created and founded by Bobby Noyes, making solid, well designed and dependable bike racks.

1998

Toyota OEM Partnership starts.

1999

Rhino-Rack pioneers its first CSL roof mounting ladder rack for Telstra, Australia's largest telecommunications company. Rhino-Rack have a Trade Fleet program with Telstra.

2005

Maxtrax is founded, producing the world's best recovery tracks.

Brad McCarthy, founder of Maxtrax, recognized the need for a system that makes vehicle recovery and extraction a safe, simple, one-person task and eliminates the need for any outside assistance such as towing, snatching, or winching.

2008

Rhino-Rack opened its first warehouse in Denver, Colorado.

Designed and launched our iconic Pioneer™ Platform range.

2009

Ford FLA and VW Partnership Starts.

Ford OEM Partnership begins.

2010

Volkswagen OEM Partnership begins.

2012

Founded and developed by Ty Hermans and the Evolve Group in 2012, TRED launches a range of recovery boards, making high-quality, reliable outdoor and recovery gear for the explorers of this world.

2017

Polaris OEM and Military Partnerships starts (US, France, Australia, Canada and New Zealand).

2019

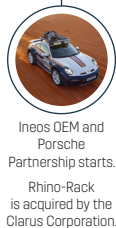

All plastic removed from the Pioneer™ packaging.

2020

Our latest Rhino-Rack® Pioneer™ Platform is awarded a Gold Award at the 2020 Good Design Awards.

2021

Ineos OEM and Porsche Partnership starts.
Rhino-Rack is acquired by the Clarus Corporation.

2022

Rhino-Rack celebrates its 30th anniversary. Rivian Partnerships starts.

2023

Launch of world's leading tray with Pioneer 6, launch of universal Sportz crossbar range.

2024

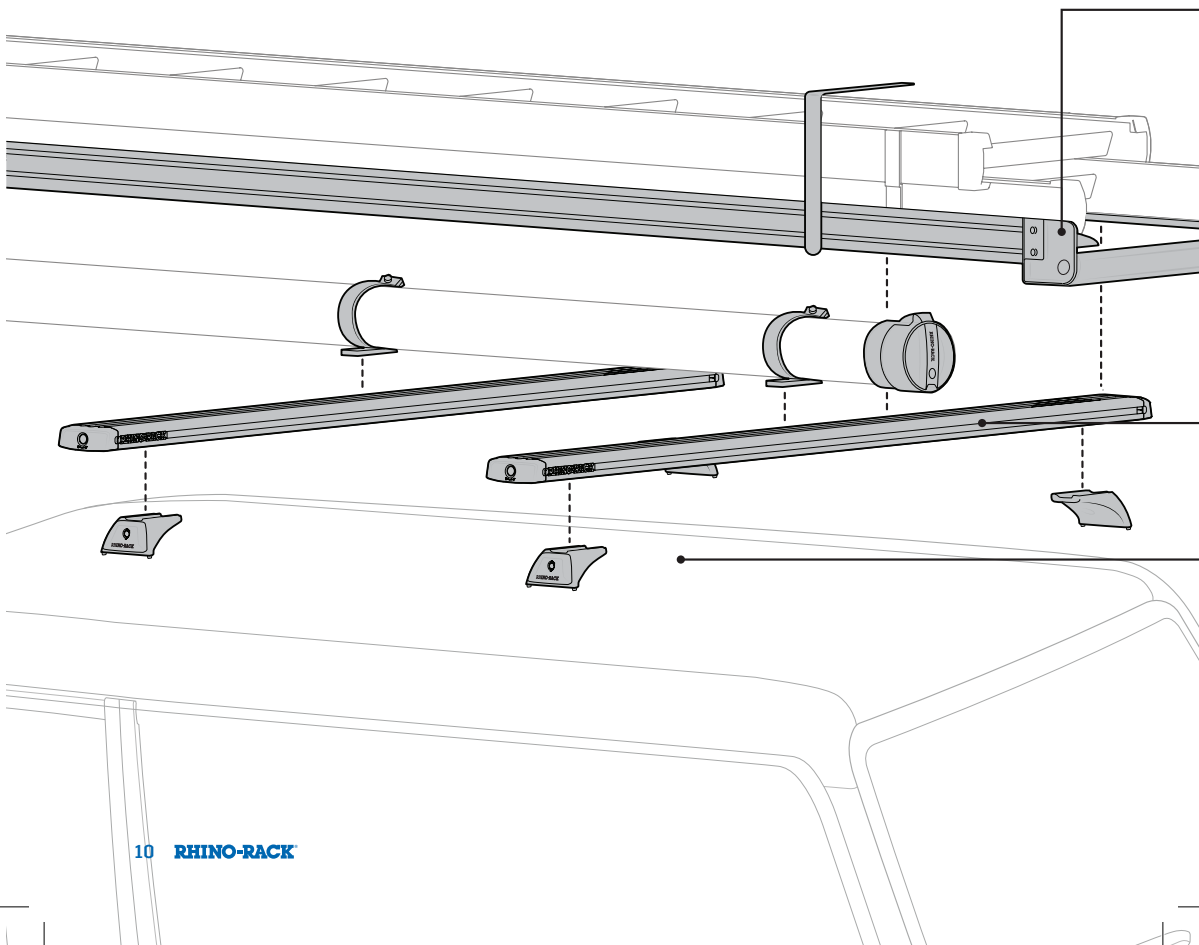

Rhino-Rack acquires RockyMounts

TRADE SOLUTIONS

DISCOVER A COORDINATING ECOSYSTEM OF TRADE PRODUCTS, DESIGNED TO ADAPT WITH MORE SPACE, STRENGTH AND VERSATILITY THAN EVER BEFORE.

With dedicated brands, customised products and the use of the latest technologies, you can rely on Rhino-Rack to transform your vehicle for work, play or anything in between.

YOUR ULTIMATE RIG

RHINO-RACK BACKBONE

For unbeatable performance and looks, the Pioneer™ platform with a Backbone mounting system is the go-to for your ultimate rig! Backbone™ mounting systems are a vehicle specific solution.

PIONEER MOUNTING SYSTEMS

A Pioneer™ mounting system generally consists of a platform and Backbone™ combination tailored to suit your vehicle's make and model. Depending on your roof type and your specific needs, you will be able to identify the mounting system options available.

To ensure we continue to offer our users the best solution on the market, Pioneer™ continues its legacy through its compatibility with our industry leading mounting systems. The integrated underbars on Pioneer platforms now mount directly with our RX Legs. Please check your vehicle user manual for your vehicle's load carrying capacity.

TECHNOLOGY

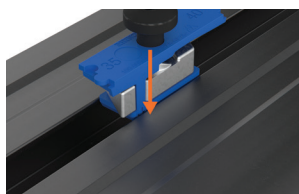

ZWIFLOC™

EASY & FLEXIBLE

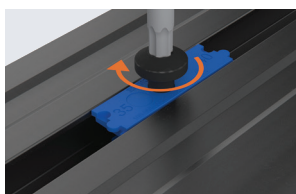

TO ALLOW ALL THE VERSATILITY YOU NEED

Our innovative Zwifloc™ fastening system allows compatible accessories to be placed anywhere on the channels without the need to move other accessories around.

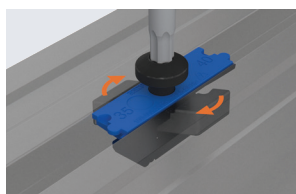

The patented Zwifloc™ hardware simply drops into the channel, so there is no need to position via a traditional channel aperture. Compatible with all Pioneer™ systems and Reconn-Deck™ bars.

Zwifloc™ simply drops into your Reconn-Deck bar or Pioneer, and sits flush within the channel.

Tighten the bolt to engage.

High tensile M6 nut rotates within the housing cage to lock in under the channel lip.

EYE BOLTS WITH ZWIFLOC™

DROP IN ANYWHERE

The Eye Bolts with Zwifloc™ are designed to provide versatile tie down points for your Pioneer platform, Reconn-Deck or Vortex crossbars. The kit includes 4 Eye Bolts, each with the patented Zwifloc™ channel nut, which allows quick and easy installation anywhere without moving other accessories.

SIMPLY TWIST IN AND TWIST OUT

The patented Zwifloc™ channel nut gives you the flexibility to add, remove or reposition the eye bolts anywhere on a Pioneer platform or Reconn-Deck system.

Personalise your accessory layout. No need to slide the eye bolts into position or move other accessories around - simply place them wherever you need them to be.

TECHNOLOGY

STOW IT™

MULTI-FUNCTIONAL

TO SUIT EVERY ADVENTURE

Start your journey with the STOW IT Base Bracket, which includes two Base Brackets and all mounting hardware, including Zwifloc™ channel nuts.

The STOW IT Base Bracket mounts directly to your Pioneer Platform or crossbar and is the core of this mounting system, allowing you to easily change the adaptor to suit your accessory needs.

THE STRONGEST, MOST VERSATILE LADDER RACKS

FROM ELECTRICIAN, PLUMBER, BUILDER OR HANDYMAN, RHINO-RACK HAS WORLD CLASS LADDER CARRYING SOLUTIONS FOR VANS, 4WDS, SUVS AND UTES. BUILT TOUGH FOR EXTREME CONDITIONS, OUR LADDER RACKS ALLOW YOU TO LOAD AND UNLOAD QUICKLY, EASILY AND SAFELY.

FEATURES

- Constructed from non-corrosive materials capable of withstanding all manner of extreme environments and weather conditions
- PVC guide strips on inside of rails to protect ladder from damage
- RLS5 ladder strap included to secure ladder to crossbars
- Versatile fit to a wide variety of vans, wagons, utes and 4WD's
- Includes ladder hoop
- Australian designed and built
- City Crash Tested - ISO/PA11154:2006 (E)
- Frontal Impact Tested - ADR69/00 20g
- Vibration Tested - IEC68-2-64

28 RHINO-RACK

HIACE

COMPACT SLIDE LOADER

FIXED RAILS WITH REAR ROLLER

This versatile system fits a wide variety of vans, wagons, utes and 4WD's. Mounted to Rhino-Rack's Heavy Duty Crossbars, the CSL ladder rack system is available in a variety of widths to allow for both extension and step ladders.

CONTINUOUS CONTACT SURFACE

For easier loading and unloading minimising movement and damage.

CSL LADDER RACKS
CSL26M, CSL30M,
CSL35M, CSL40M

MULTI-SLIDE SYSTEM

SLIDING SUPPORTS

The Multi-Slide systems have a rear roller that allows for stress free loading and unloading to help guide the ladder on to the ladder rails which have several polypropylene plastic guides to protect the ladder. Also installed on Heavy Duty Crossbars, a RLS5 strap is included to safely secure the ladder.

LADDER PADS

Guides made from UV stabilised polypropylene help protect ladders on the rails and provide level contact.

MULTI-SLIDE LADDER RACKS
MS26M, MS30M,
MS35M, MS40M

INTERNAL LADDER RACK

MOUNTED INSIDE VAN

Internal Ladder Racks provide secure transportation without taking up valuable floor space and reducing the risk of ladder theft. They are height adjustable, storing a ladder up to a height of 1.8m. When not being used hanging sections pivot upwards to increase head clearance in the van.

INTERNAL LADDER RACK ILRRACK

BRACKET KITS:
TOYOTA HIACE (GEN 6) ILRH6GK1,
HYUNDAI ILOAD (08) ILRHILK1

SECURE STORAGE

Reduces risk of theft and exposure to elements. Mounts ladders above load space for improved organisation and cargo capacity.

ADJUSTABLE

Ladder supports can be rotated when not in use to increase clearance and cargo space.

SLIDE OUT LADDER LOADER

SLIDING MECHANISM FOR SAFER & EASIER ACCESS

Similar to the Multi-Slide ladder rack with the added feature of a slide out mechanism at the rear. Combining ergonomic design with structural-grade materials, it provides a fast, simple, one-person solution for lifting ladders. It allows ladders to be loaded and unloaded from high-roof vehicles quickly, easily, and safely, reducing the risk of back strain and lifting-related injuries.

SLIDE OUT LADDER LOADER T7-SLRS

SLIDE OUT MECHANISM

Extending rail allows easy sliding of ladder on and off away from the back of the vehicle.

AWNING RANGE

OUR RANGE OF AWNINGS AND ACCESSORIES ARE BUILT FOR TOUGH CONDITIONS, DELIVERING DEPENDABLE PROTECTION FROM THE ELEMENTS WHILE ON SITE AT WORK OR ON A BREAK.

With seamless compatibility across Rhino-Rack systems, one person operation, and no ropes or tripping hazards – it's the easy way to roll out and reset.

- Coverage options from 2m² to 12.3m² (43ft² to 132ft²)
- Premium 280 gsm ripstop polycotton fabric with 2000 mm waterhead pressure and UV50+ protection
- Compact, lightweight options including integrated storage pockets and roll-back roof access (Shower Tent)
- PVC or polyester storage bags for protection when stowed
- Easy to install. All awnings come with mounting brackets, guy ropes, pegs, and optional poles
- Side walls available separately for added shade and privacy
- Compatible with Zwifloc™ for seamless integration

FREESTANDING BATWING 270° | 32145 (Left), 32146 (Right)

Extends up to 2m/78" from edge of vehicle and wraps around the side (left or right options) and rear of the vehicle providing 12.3m²/132ft² coverage

FREESTANDING BATWING 180° | 32147

Extends up to 2m/78" from edge of vehicle providing 8.4m²/90ft² coverage

SUNSEEKER 2.0M AWNING | 32143

Extends 2m/78" from edge of vehicle providing quick and easy 4m²/43ft² coverage whenever you need it

SUNSEEKER 2.5M AWNING | 32144

Extends 2.5m/98" from the edge of the vehicle providing quick and easy 5m²/53ft² coverage whenever you need it

FREESTANDING SUNSEEKER 2M | 32148

Extends 2m/78" from edge of vehicle when opened, providing 4m²/43ft² coverage

MAXTRAX

SAFE & SIMPLE RECOVERY SYSTEM

Maxtrax has designed the ultimate recovery system with safety as the top priority. After decades of offroading in all Aussie conditions, we've created the safest recovery gear, perfect for both work and weekends.

RECOVERY TRACK MOUNTING KIT WITH UNIVERSAL PINS | MTXFRMUMPU

Built tough for off-road conditions the brackets mount easily to your roof platform, crossbars, canopy or camper trailer, to lock your boards in tight — keeping your gear secure, organised, and always within reach.

CROSSOVER RECOVERY KIT | MTXRKCO

Designed specifically for smaller GVM vehicles, this has everything you need to handle off-road and beach recoveries with confidence. The kit includes the key components to get you out of sticky situations safely.

BUSH RECOVERY KIT | MTXRKCB

Designed for use on bush tracks where winching with the use of trees may be common. Tackle challenging recoveries with a variety of connectable ropes neatly stored in a Maxtrax Recovery Kit Bag.
