8	Fiamma Awning Bracket	3	CA1487
9	Fitting Instructions	1	R833
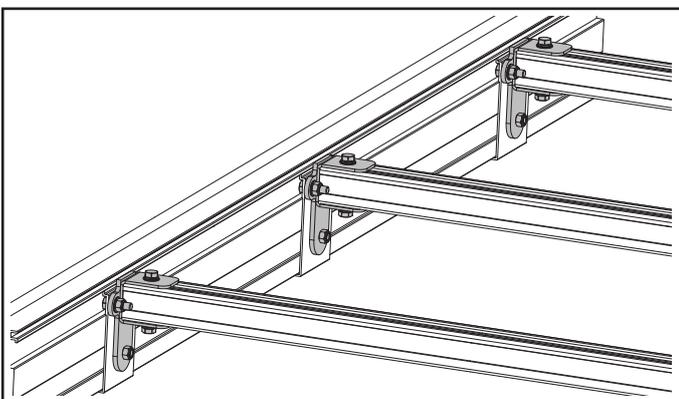

1 Place the awning bracket on a Fiamma adapter that is secured to the awning such that the bottom hole of the awning bracket is in line with the middle of the bottom channel spacing. Mark the holes using a pencil onto the adapter.

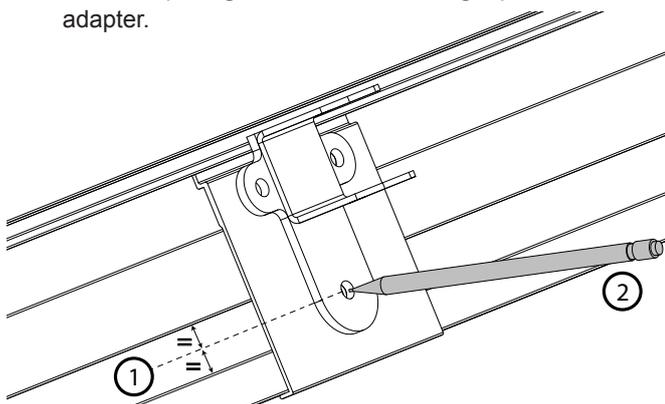

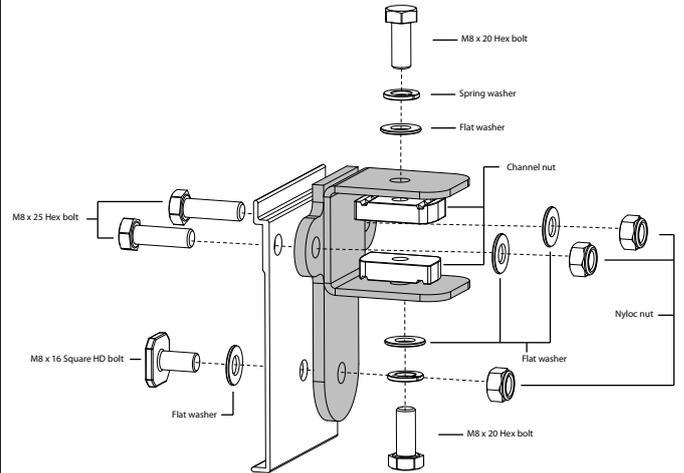

2 Using a drill with a 8.5mm drill bit, drill through all three traced holes. Repeat for the other Fiamma awning brackets.

Note:
8.5mm drilled holes will intersect with existing square holes.
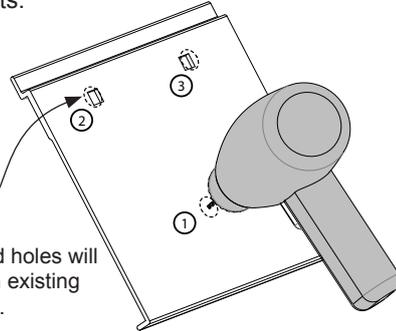

3 Assemble the hardware onto each of the Fiamma awning brackets with the adapter as shown. Finger tighten.

M8 x 20 Hex bolt
Spring washer
Flat washer
Channel nut
M8 x 25 Hex bolt
Nyloc nut
M8 x 16 Square HD bolt
Flat washer
Flat washer
M8 x 20 Hex bolt

4 Slide the assembled Fiamma awning bracket unit into the 'C' Channel of the HD bar. Tighten all bolts.
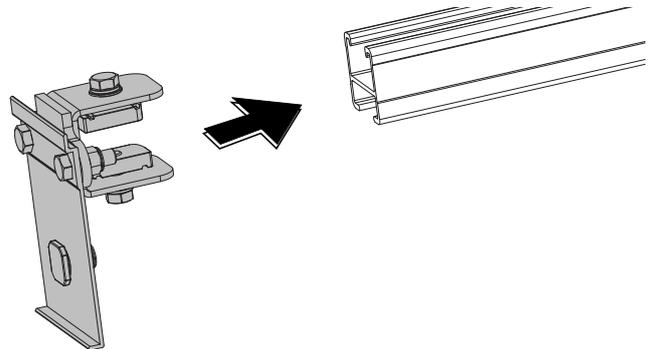

5 Please refer to Fiamma's fitment instruction to install the Fiamma awning onto the adapter.
