

RHINO-RACK

Rhino Backbone Protective Foam RJKPF

Important: Please read these instructions carefully prior to installation.
Please refer to your fitting instruction to ensure that the roof racks are installed in the correct locations.
Check the contents of kit before commencing fitment and report any discrepancies.
Place these instructions in the vehicle's glove box after installation is complete.

Layout:

IMPORTANT Care Instruction: PLEASE READ THROUGH INSTRUCTIONS BEFORE FITTING.

Important Information

Recommendations:

Be sure the Protective Foam Pads are secured into position before driving. Check regularly for wear and tear, replace if required.

Note for Dealers and Fitters:

It is your responsibility to ensure instructions are given to the end user or client.

Rhino Protective Foam Pads RJKPF

Item	Component Name	Qty	
1	Protective Foam Pad	2	RJKPF
2	Instructions	1	R501

Layout:

1.

1 Push the pad over the support bracket of the Backbone.

Note: Pads are to be fitted on the front supports of the Backbone only.

2 With the pad in place, starting at the top of the 'looped' side of the velcro: 1- Push the velcro around the back of the Backbone bracket. 2- Moving down the pad, push the remainder of the velcro into place.

Looped Velcro:

3 Hold the looped velcro in place (as in previous step). 1- Push the remaining velcro around the back of the Backbone bracket. 2- Moving down the pad, push all of the velcro into place. Be sure velcro is secure before driving.

Repeat step 1-3 for the opposite side of the vehicle.
