

RHINO-RACK®

FARIZON V7E Roof Prep Guide

Important:

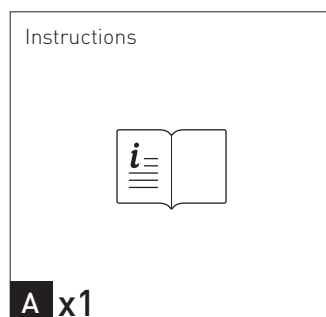

1. Check the Rhino-Rack website to ensure you have the latest issue of these instructions.
2. Please refer to your fitting instruction to ensure that the roof racks are installed in the correct locations.
3. Check the contents of kit before commencing fitment and report any discrepancies.
4. Place these instructions in the vehicle's glove box after installation is complete.
5. These instructions must be followed for warranty to be upheld.

Fit Time: 45mins

FARIZON V7E Roof Prep Guide

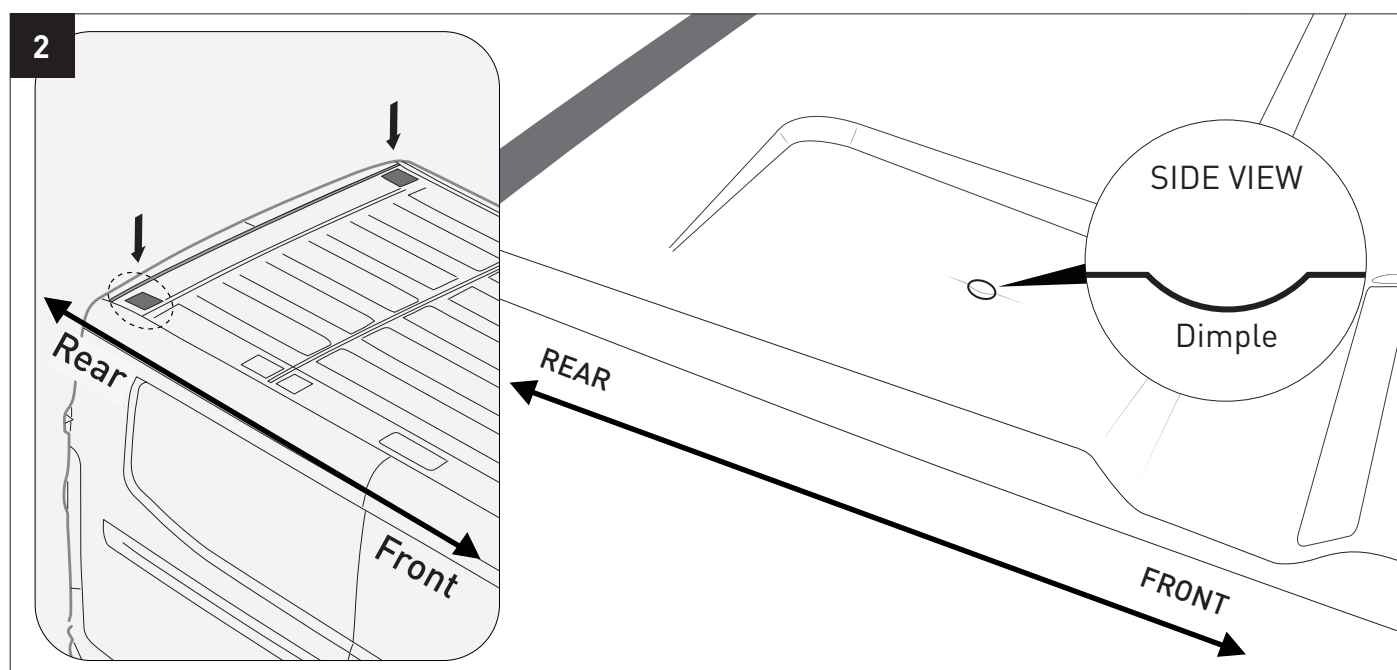

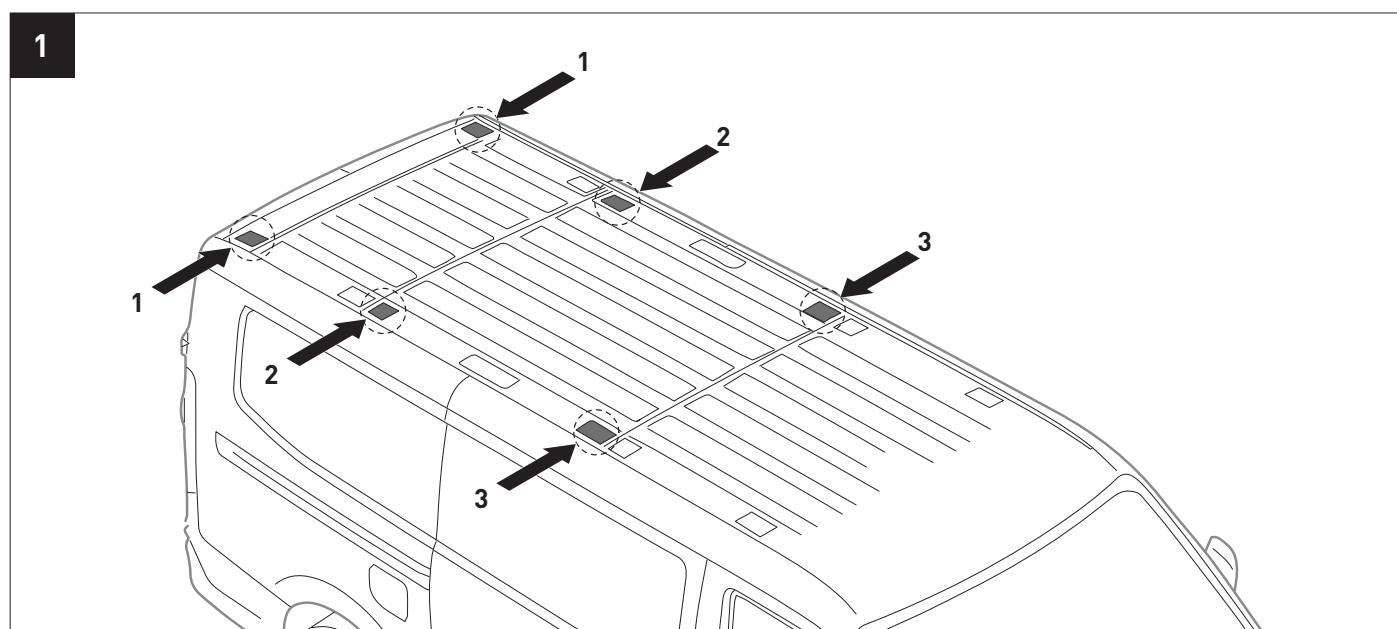

Parts List

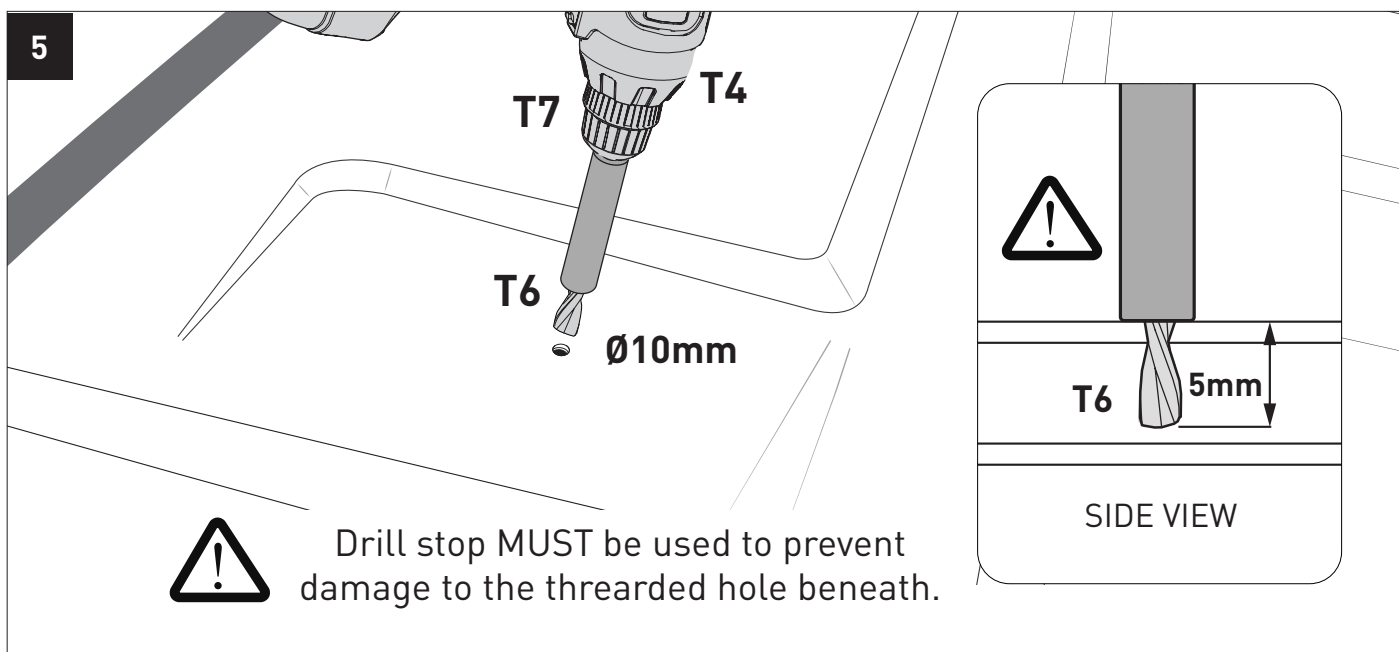

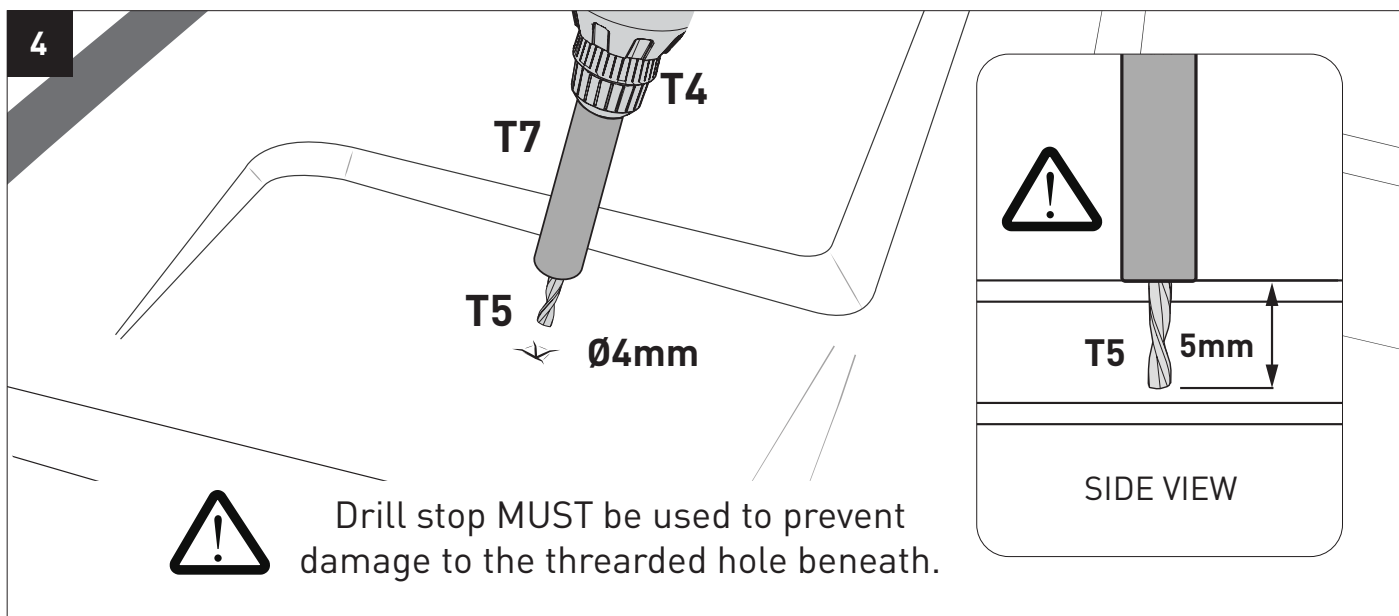

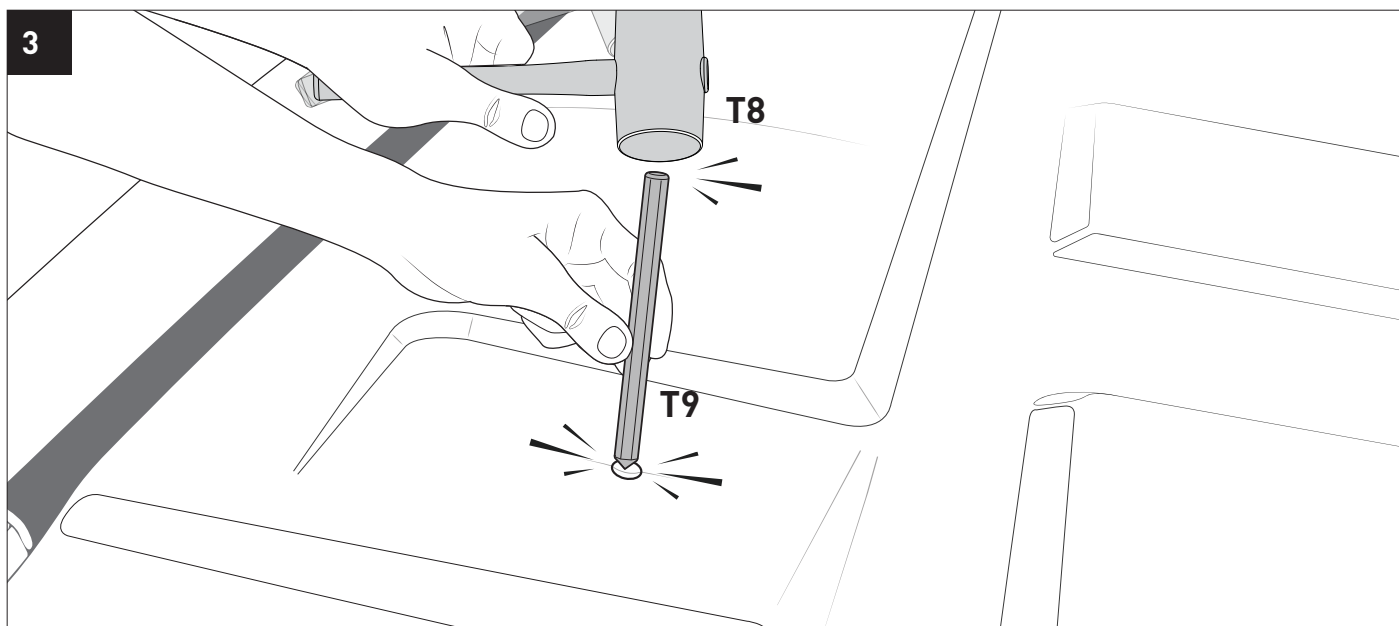

Tools Required:

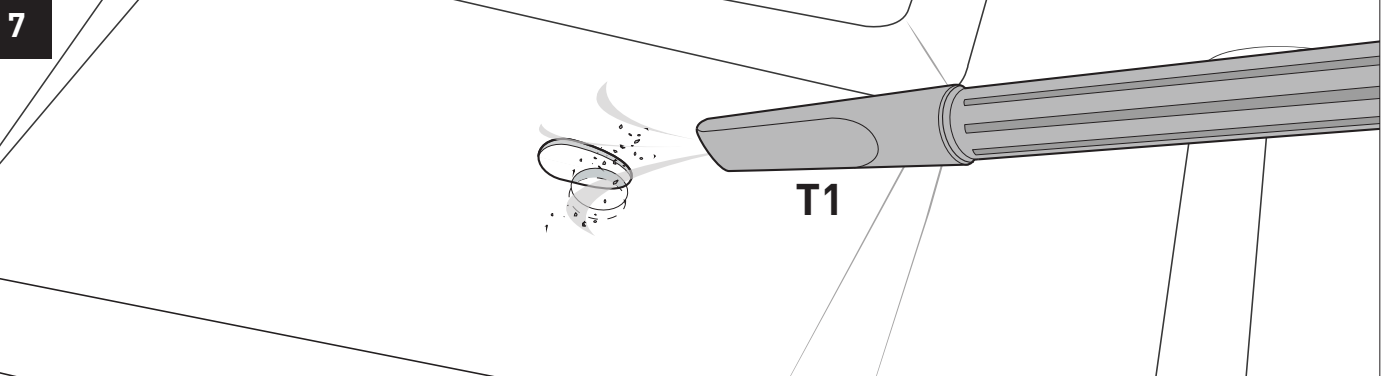

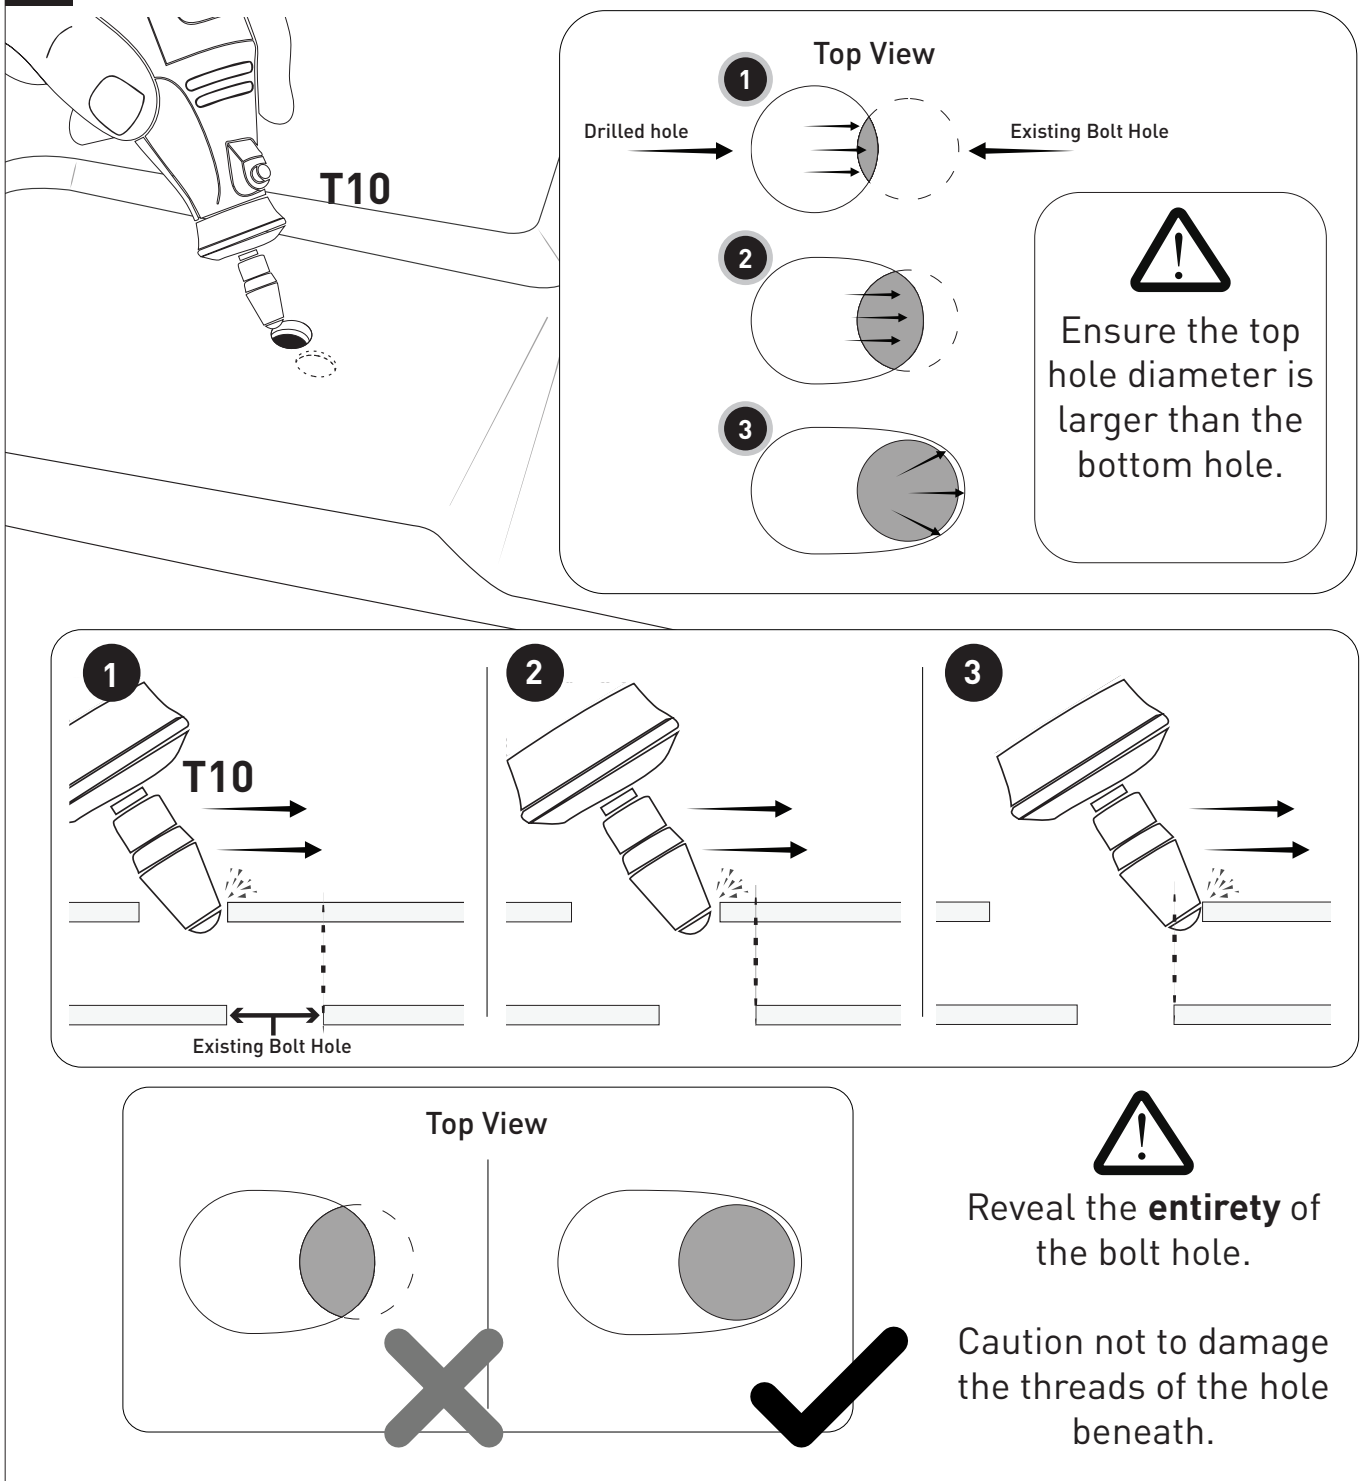

- T1** - Vacuum
- T2** - Cold Galvanising Paint
- T3** - Cotton Tips
- T4** - Drill
- T5** - 4mm Drill Bit
- T6** - 10mm Drill Bit
- T7** - Drill Stop
- T8** - Mallet

Instructions

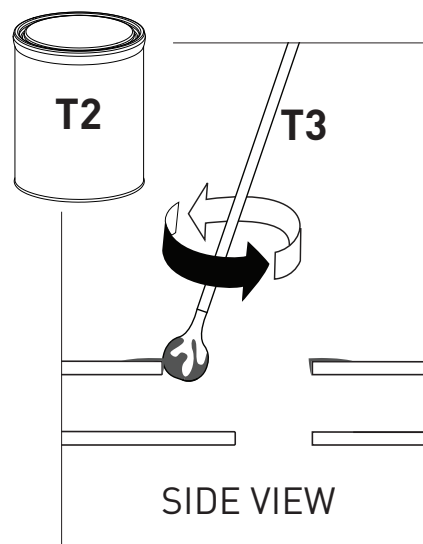

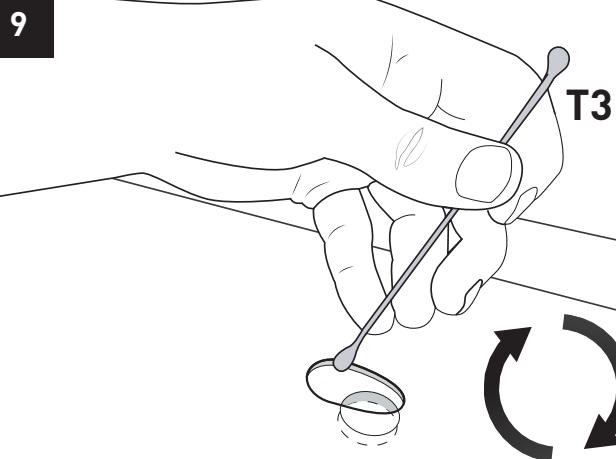

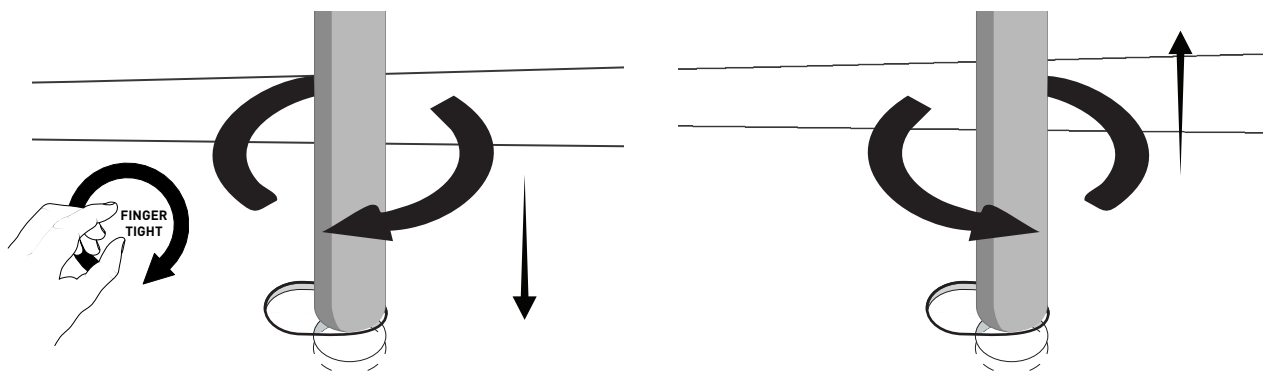

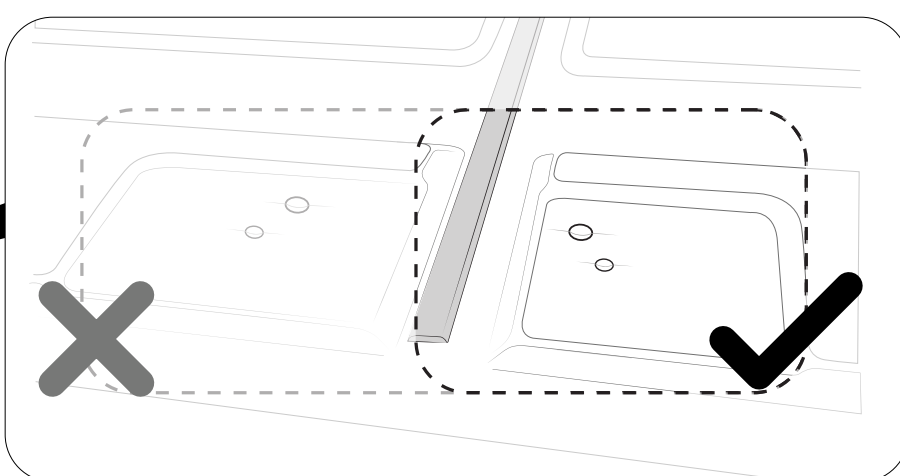

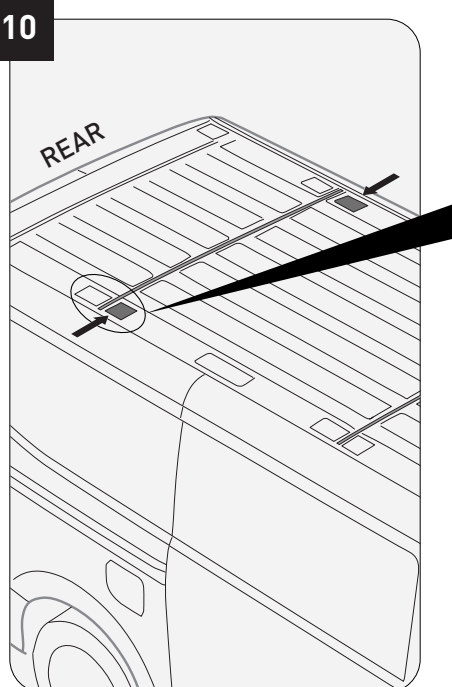

6 Use **T10**, to create a concentric hole on the top surface.

- 8** Using a bolt provided in the **RCP-95 kit**, thread the bolt in and out, keeping it clear of the sides to avoid thread damage. If it touches the sides, repeat steps **6** to **7**.

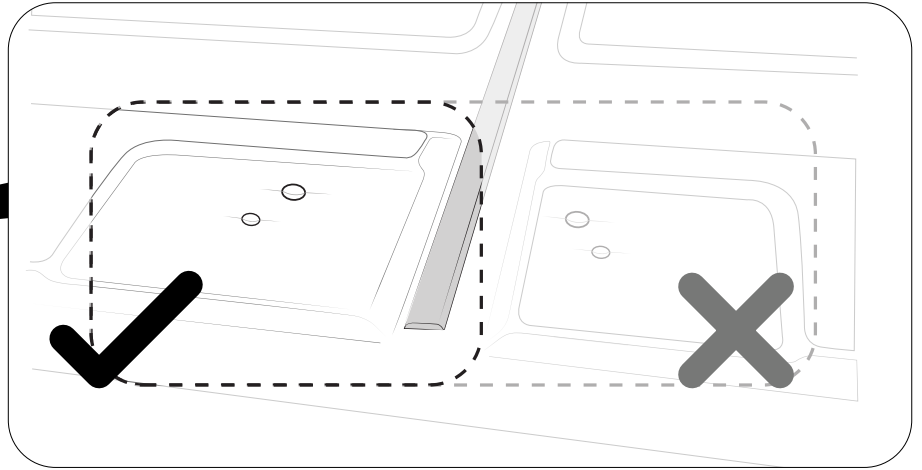

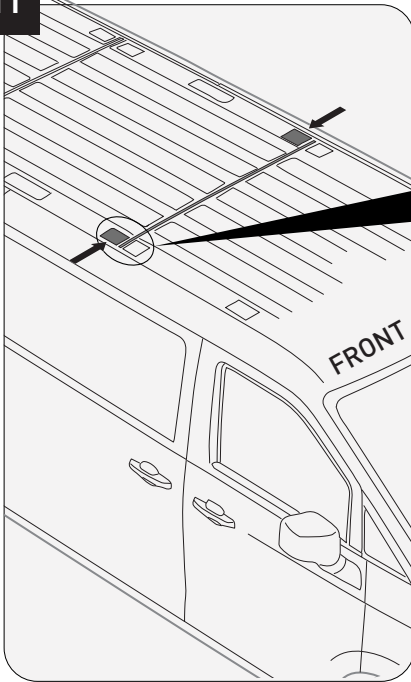

10

Dimple position may vary!

Identify the **smaller** of the two, then repeat steps **2** to **9** for **both sides** of the middle bar section

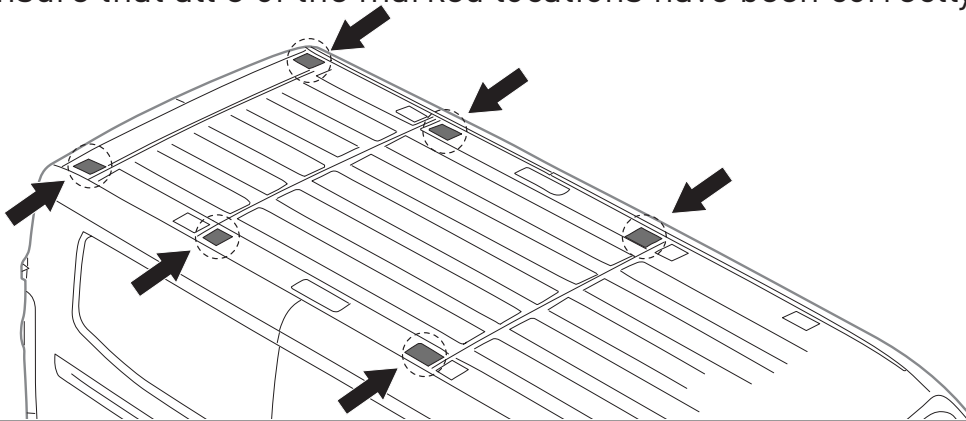

11

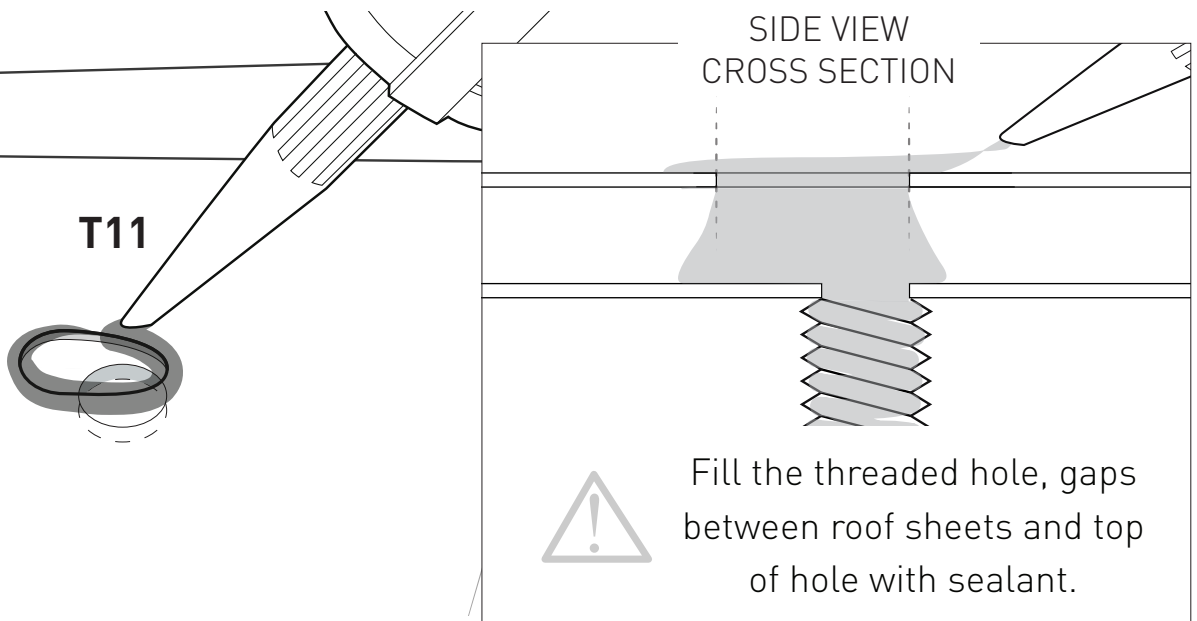

Dimple position may vary!

Identify the **smaller** of the two, then repeat steps **2** to **9** for **both sides** of the Front bar section

12 Ensure that all **6** of the marked locations have been correctly prepared.

13 Apply sealant to all 6 modified locations.

Installation Complete.

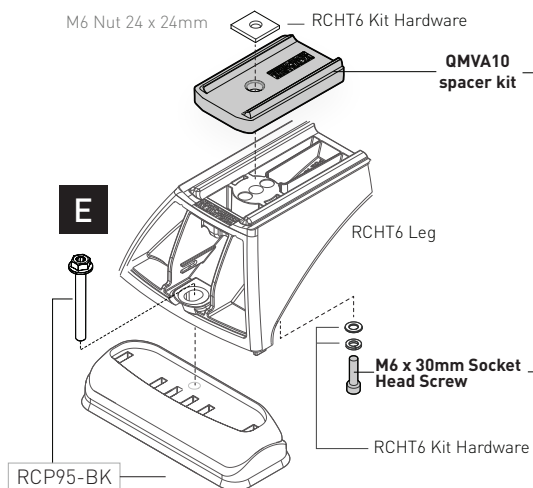

NOTE

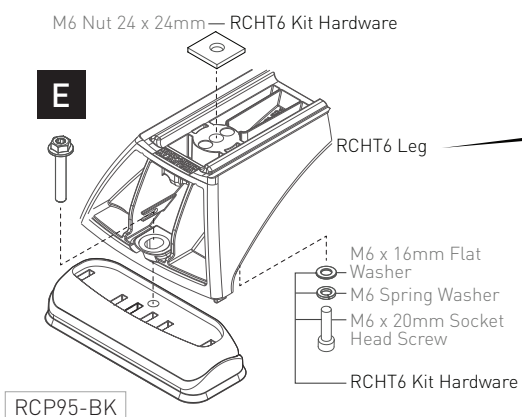

Before the sealant dries, continue to the installation of your RCP95 base kit. Start from step **3 of the guide.**
