

RHINO-RACK

Aerodynamic & Heavy Duty Roof Rack Systems

SPECIFICATION SHEET

RSS24

VEHICLE BRAND	HOLDEN
VEHICLE TYPE	VT SEDAN (series 1 and 2)
YEAR MODEL	98 ON
LOAD RATING	50KG

SPECIAL FITTING TIPS

Please note that there is a front and rear crossbar and front and rear straps. Identify the front and rear straps [rear straps are notched]. Position the pads and straps on the rooftop. Note the position of the door trim screws and position the rack in accordance with the diagram. Front bar fits behind second screw from B-pillar. Rear bar fits in front of third door trim screw. Ensure that the rack is installed in the correct location and tighten all bolts..

SPECIFICATIONS:

Front Bar – 990mm

Rear Bar – 1000mm

A – see diagram.

B – see diagram.
